

Washtenaw County Plumbing & Mechanical Joint Promotion Council

The Washtenaw County Joint Promotion Council was formed by the Plumbing and Mechanical Contractors Association and Plumbers and Pipefitters Local 190 to improve communication between labor and management, instill a commitment to total quality, and educate the community about benefits of using union employing contractors. It is the first program of its kind that is co-sponsored by labor and management. The Council has opened communication with owners, users, architects, engineers, and all others involved in construction projects. Council promotional activities inform the public of our community activities, such as Heat's On that cleans, repairs, and replaces furnaces of the needy each Fall; Christmas in April; renovating Burton Tower for the University of Michigan Musical Society; and Habitat for Humanity.
