

## Call for Climate Investment Funds Youth Fellowship 2023

### Location: Tunisia

The Climate Investment Funds (CIF) has created the CIF Youth Climate Fellowship in partnership with Multilateral Development Bank (MDB) partners to give young climate leaders the opportunity to work with projects co-financed by the CIF in their country of residence. The one-year fellowship gives candidates the opportunity to work with CIF's frontier climate finance and with the partner MDBs on climate action programs in areas such as nature-based solutions, clean energy, adaptation and climate resilience, climate finance, and gender and social inclusion.

### What Is this CIF Youth Fellowship About?

- **Location:** Tunisia (Middle East and North Africa)
- **Thematic areas:** Climate Resilience, and Clean Energy
- **Hosting MDB:** International Finance Corporation (IFC)
- **Project:** Support to Economic Recovery and Job Creation in the Agri-Food Sector and Rural South
- **Number of Fellows:** 1 Fellow

Through CIF' Climate Technology Funds, IFC is supporting Enda Tamweel, the largest microfinance institution in Tunisia, to develop a dedicated SEF product offering to increase access to financing for underbanked segments, including agricultural SMEs, to invest in climate-smart agriculture. The agriculture sector accounts for about 30% of Enda's total loan portfolio, and Enda would look to implement a strategy to encourage green investments in the sector, starting with a pilot for solar pumping for small farmers in the southern (desertic) part of the country, which are not served by commercial banks.

The selected Fellow will assist the team on the IFC's CTF project, Enda and possibly other climate projects in Tunisia, which will include implementation support. Specifically, we expect the selected Fellow to be involved in the following tasks (but not limited to):

- A report capturing the interventions and impacts of the Enda project (and any other possible CIF project) in Tunisia.
- Support IFC's CIF portfolio and business development in Tunisia.

- Support the task team in the preparation of the relevant project documents and briefing notes as and when required. Such as quarterly project progress reports to the CIFAU and IFC management.
- Coordination with key stakeholders, including the Government of Tunisia and relevant ministries and other MDBs, and World Bank Group staff in country.

## How Will this CIF Youth Fellowship Work?

- **Duration and time commitment:** One-year program starting from September 1, 2023, to August 31, 2024, with the possibility of adjustment. You might be assigned to work on a part-time or full-time basis, depending on the requirements of the respective MDB as well as any higher education commitments you might have.
- **Location:** You will be based in IFC's Tunisia country Office. Travel within Tunisia may also be required.
- **Entitlement:** You will be provided a suitable stipend, taking into account the Purchasing Power Parity of the country, and in-kind logistical support such as staff time for mentoring and office space.
- **Coordination:** You will be onboarded with a Work and Learning plan and assigned mentors who will organize routine check-ins and serve as the go-to person for questions, minor grievances, and coordinating the Work Plan. As part of the Learning Plan, CIF will hold several in-person and virtual training sessions and technical workshops, and support for research and publication of knowledge products, and opportunities for cross-learning with other CIF programs and initiatives.

## Who Are We Looking For?

- **Age:** Between 18 and 28 years of age during the time of application.
- **Residence and work authorization permit:** You must be a resident in Tunisia and have a valid work permit.
- **Qualifications:** You must hold an undergraduate or graduate degree in engineering, economics, finance, public policy, environmental sciences or similar with relevant experience or course work in areas of CIF's work such as climate finance, clean energy or climate change.
- **Availability:** You should be available to work on the Fellowship between 16 hours (part time) to 40 hours (full time) per week.
- **Language:** You must be fluent and have good writing skills in English as well as in the native language of the country where you reside.
- **Profile:** You must have (i) demonstrated passion for a thematic area relevant to the Fellowship (adaptation and climate resilience, clean energy, energy access,

nature-based solution, gender and social inclusion and other core cross-cutting themes); (ii) interest in engaging and mobilizing stakeholders for climate action; and (iii) experience working with a diversity of stakeholders.

- **General competencies:** You must be proficient in basic computer programs, adaptable to varying tasks and prioritize them, able to provide professional support to senior staff, and possess strong interpersonal skills to build relationships both within and outside the organization.
- **Assignment-specific skills and knowledge:** You have strong analytical and conceptual skills and ability to interpret and present technical/research information.

## How To Apply

Apply through the Fellowship Application Form, click [HERE](#) or use this link:

<https://www.surveymonkey.com/r/cifyouthfellowship>

**Deadline:** July 7, 2023, 11:59 p.m. Eastern Time

*The application process will include stating your interests, experience and motivation, and submitting a resume. Only shortlisted candidates will be invited to a set of interviews to demonstrate their passion, intention, and general fit for the Program. The jury will comprise representatives from the six partners MDBs and CIF program leads. Additionally, the candidates might be asked to share references.*

## Who We Are

### The Climate Investment Funds

The Climate Investment Funds (CIF) was established in 2008 to mobilize resources and trigger investments for low carbon, climate resilient development in select middle- and low-income countries. CIF has 14 contributor countries that have pledged over US\$11 billion to the funds. To date CIF committed capital has generated an additional US\$62 billion in co-financing for mitigation and adaptation interventions at an unprecedented scale in 72 recipient countries. CIF's large-scale, low-cost, long-term financing lowers the risk and cost of climate financing. It tests new business models, builds track records in unproven markets, and boosts investor confidence to unlock additional sources of finance. The CIF is one of the largest active climate finance mechanisms in the world.

### International Finance Corporation

International Finance Corporation (IFC) — a member of the World Bank Group — is the largest global development institution focused on the private sector in emerging markets. We work in more than 100 countries, using our capital, expertise, and influence to create markets and opportunities in developing countries. In fiscal year 2022, IFC committed a record \$32.8 billion to private companies and financial institutions in developing countries, leveraging the power of the private sector to end extreme poverty and boost shared prosperity as economies grapple with the impacts of global compounding crises.
